

# Host a Pod Blood Drive

## Why host a Community Blood Center Pod Blood Drive?

- 1 Provide an employee engagement opportunity**  
 The Pod is an elevated blood drive experience where employees and members of the community can come together to save lives.
- 2 Be a beacon of safety**  
 By hosting the Pod, you are contributing to the overall community blood supply.
- 3 Show your organization's commitment to local social causes**  
 By hosting a place for blood donors to donate, safely and comfortably, you are showing your business' commitment to the wellbeing of your community.
- 4 Increase brand awareness**  
 When people come to donate blood and support Community Blood Center's mission of saving lives, they'll have immediate access to your own business.

## What am I committing to when I host a Pod?

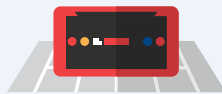

### Shore power

While the Pod is equipped with two generators, shore power is preferred.  
 Requirements:  
 240 volts  
 30 AMP/4-prong  
 Power cord will reach 20'

### Arrival and setup coordination

Our team will be on site to help facilitate and secure the Pod placement on the day of delivery.

### Designated space

The Pod is 50' x 20' in size and occupies about 8 parking spaces. Surface placement must be:  
 On asphalt or concrete  
 Level ground that does not exceed an 8" drop or rise over 20'

### Restroom access

We ask that you please provide restroom access for all blood donors and blood center team members.

### Insurance information

We will provide a Certificate of Insurance that will include your location and any additional insurance requirements.
